

# XXIV ENCUENTRO DE JÓVENES INVESTIGADORES EN PALEONTOLOGÍA

*Second circular*

We are pleased to announce that the registration period for the **XXIV Encuentro de Jóvenes Investigadores en Paleontología** has begun. You can register through the link available on our social media profiles and on our website.

### ***Registration fees***

**Early-bird in-person registration: 65€**

**Late-bird in-person registration: 80€**

**Online registration: 10€**

**Gala dinner: 25€**

**Field trip: 15€**

**Albacete–Bogarra bus: 15€**

**Official T-shirt: 10€**

The **early-bird registration** period runs until **Sunday, February 1**, while the **late-bird registration** period extends from **Monday, February 2 to Sunday, March 15**, or until all spots are filled.

The **total amount** for the activities selected in the registration form must be sent via **bank transfer** using the following details:

**Concept: Surname\_Name-XXIVEJIP**

**Bank: CaixaBank**

**BIC: CAIXESBBXXX**

**Account holder: Asoc Para El Estudio Del  
Patrimonio De Bogarra**

**IBAN: ES77 2100 8236 7202 0018 7720**

The **payment receipt** must be sent in PDF format to **xxivejipbogarra@gmail.com** or attached at the end of the registration form. Without the payment receipt, the **registration will NOT be completed**.

The **meals** included in the in-person registration will take place in various **bars and restaurants in Bogarra**. We remind you that you must inform us of your **diet, allergies, and intolerances** so that we can propose a menu suitable for all attendees. A form with the daily menus will be sent in the future to streamline the meal process.

We also remind you that **breakfast and dinner are NOT included** in the registration fee.

As every year, the Organizing Committee offers **free accommodation** for all attendees who request it. In this edition, the accommodation available to participants will be the **Pabellón de Bogarra**.

For those attendees who require it, a **bus\*** has been arranged to travel from **Albacete to Bogarra** on **Monday, April 6 at 13:00\*\*** and the return from **Bogarra to Albacete** after the **field trip concludes**.

*\*Limited seats. They will be assigned in order of registration.*

*\*\*Tentative schedule, subject to slight changes.*

The **gala dinner** will take place at **Restaurante Hostal Atalaya** on **Thursday, April 9.**

For all attendees of the gala dinner, a **bus** will be provided for the journey (approximately fifteen minutes). More information about the schedules will be provided in the future.

The field trip will take place on the morning of Friday, April 10. During this trip, the Bogarra waterfalls and various sites, both paleontological and archaeological, will be visited, making comparisons between them. The journey will be conducted by bus and on foot.

*Limited spots available.*

This year, **four workshops** are being offered. Spots are limited and will be assigned on a **first-come, first-served basis** until full capacity is reached.

***!Impro-Paleo para no quedarte en blanco!:  
Taller de improvisación teatral para  
mejorar la oratoria***

Taught by Dr. Elena Cuesta

📅 Monday, April 6, 15 - 17h.

👤 15 spots. In-person.

In this workshop, we will develop tools that will help you improve your storytelling in oral presentations using different theatrical improvisation techniques. We will learn, through various improvisation exercises, how to narrate in a fluent, engaging way without losing scientific rigor.

Taught by Dr. Francesc Gasco

***Modelismo científico***

Monday, April 6, 17 - 19h. 📅

20 spots. In-person. 👤

In this workshop, we will provide an introduction to modelling applied to paleoart. We will learn different basic techniques for painting and assembling models through practical application.

## ***Introducción a la inferencia filogenética bayesiana***

📅 Monday, April 6, 15:30 - 18:30h.

👤 20 spots. **In-person.**

While methods such as phylogenetic inference through parsimony assume that the best phylogenetic hypothesis is the one that minimizes the number of evolutionary changes, Bayesian inference is a method that allows working with various evolutionary models and estimates the posterior probability of multiple trees, thus integrating uncertainty and enabling us to evaluate and explore different evolutionary scenarios. In this workshop, we will introduce the Bayesian phylogenetic analysis method and work with simple practical cases.

Taught by Dr. Ane de Celis

## ***From data to design: Communicating research visually***

Monday, March 16, 10-12h. 📅

Online. 👤

We will learn to present our research clearly through well-designed figures. You will learn to apply basic design skills to make your results stand out.

Taught by Dr. Dánae Sanz Pérez

*This workshop has been made possible thanks  
to the collaboration of*

transmitting  
science

Attendees who wish to make a contribution to the meeting (either as a **poster** or **oral communication**) must submit an abstract of up to **300 words** to **xxivejip.editorial@gmail.com**, using the **template available on our website**. Abstracts must be submitted before February 1st, **2026**, for review by the Scientific Committee.

More information about the different presentation formats is available in the first circular and on our website. **Slides and videos** for oral presentations must be submitted to the editorial email before **Friday, April 3**.

The **rules for the contests** are available on our website. The participation period for all contests (except Paleomemes) is from **January 1 to March 16, 2026**.

### ***Paleorelatos***

Submissions must be in Spanish or English and must not exceed 3000 words.

### ***Paleoilustración***

Any traditional or digital illustration technique may be used.

### ***Paleomodelismo***

Real 3D models integrated into a virtual or real 3D or 2D scene using photo editing or 3D modeling software.

***We look forward to  
seeing you in  
Bogarra!!***
